

B2B Growth Marketer with 6+ years driving demand generation and enterprise pipeline for high-growth SaaS and fintech companies. Reduced acquisition costs by **68%** while increasing lead volume by 120%+, and built AI-native growth workflows using Claude Code + MCP that cut manual marketing ops by up to 90%.

WORK EXPERIENCE

Career built across performance marketing, product GTM, and AI-driven automation scaling growth for SaaS, fintech, and B2B companies globally.

Growth Engineer & Performance Marketing Lead | Revv GrowthMay 2025 - August 2026

Leading cross-functional growth initiatives — spanning AI-driven automation, design, and client engagements contributing 70%+ of agency revenue through ABM, data-driven campaigns, and end-to-end delivery.

- Internal AI driven Growth Initiatives ([For more builds](#))
 - Automated lead generation and outreach using Claude Code reducing manual workload by 80% and driving 5x higher lead engagement, resulting in a **35% lift** in marketing-to-sales conversion.
 - Built a suite of AI-driven automation tools (Claude Code + MCP) to run performance marketing operations end-to-end from real-time monitoring across 7 ad accounts to automated flagging and campaign pushes reducing execution time by **96%** and removing manual reporting entirely.
- Client Engagements
 - Itilite (enterprise SaaS)**: optimized landing pages and CRM workflows to increase leads by 36%, **qualified opportunities by 2x**, and measurably lower customer acquisition costs.
 - Owned end-to-end ABM marketing for an **identity and fraud company** across India, SEA & UAE campaigns, improving lead-to-MQL conversion rate by **38% (65%→90%)** in the top-performing segment over 3 months through data driven creative refreshes and audience optimization.
 - Managed growth marketing for **6+ B2B SaaS clients**, executing performance marketing strategies that accelerated qualified pipeline growth while optimizing CAC and campaign ROI.
- Design & Development Leadership
 - Serving De facto lead for design & dev teams resolving technical/design blockers, building internal tools with Claude Code, and allocating resources by priority and capacity.
- Sales Enablement
 - Closed an \$8K deal end-to-end** (proposal to sales call), then built a reusable sales toolkit — templates, collateral, automation that drove 4 additional closures across Revv Growth's service lines.
